

SMARTGOV FOR ADMINISTRATION

BID MANAGEMENT

Streamline and optimise your bid management processes with SmartGov, ensuring transparency, compliance and efficiency from procurement initiation to contract signing.

Save time and resources, reduce risk & ensure compliance and improve decision-making.

KEY FEATURES

Initiate Procurement and Obtain Approval

Streamline procurement initiation and obtain necessary approvals efficiently.

Track Supplier Responsiveness

Identify and exclude unresponsive suppliers to streamline future RFQs.

Automated Comparative Assessments and Approvals

Generate assessments and route them for approval based on delegation levels, ensuring transparency and accountability.

Scan and Store Responses

Centralise supplier responses for easy access and review.

Develop and Finalise TOR and Advertise

Develop and finalise Terms of Reference (TOR) and advertise bid opportunities seamlessly.

Enforce Compliance

Automatically exclude blacklisted or non-compliant suppliers and ensure supplier rotation.

Speed Procurement

Reduce turnaround times, enabling line functions to execute their mandates more effectively.

Evaluate Bids (Bid Adjudication (BAC) and Bid Evaluation (BEC))

Manage bid adjudication and evaluation processes with transparency and consistency.

Budget Integration

Prevent procurement without available funds through seamless integration with your BAS system.

Analyse Spending

Gain insights into spending patterns by commodity, supplier and region to inform strategic decisions.
