

SMARTGOV FOR ADMINISTRATION

# eRECRUITMENT

Recruitment significantly reduces administrative burden and accelerates the recruitment process.

It automates repetitive tasks, centralises candidate data and facilitates seamless collaboration between HR teams and hiring managers.

This allows administrators to focus on strategic initiatives and attract top talent to the public sector.

Streamline and modernise your government's recruitment process  
with SmartGov for Admin - eRecruitment.

## KEY FEATURES

### PERSAL Integration

Seamlessly connect with PERSAL (Personnel and Salary System) for real-time employee data and automated updates.

### CSD Integration

Effortlessly verify candidate qualifications and experience against the Central Supplier Database (CSD) to ensure compliance and mitigate risks.

### BAS Support

Streamline the Budgeting and Accounting System (BAS) processes by automatically capturing and tracking recruitment expenditures.

### AD Integration

Simplify user management and access control by leveraging Active Directory (AD) integration for secure authentication and authorization.
